

tops::ProbabilisticModel  
Creator

```
graph BT; A[tops::TrainVariableLengthInhomogeneousMarkovChain] --> B[tops::ProbabilisticModelCreator];
```

The diagram illustrates a class inheritance relationship. A light gray box at the bottom represents the base class, 'tops::TrainVariableLengthInhomogeneousMarkovChain'. A dark gray box at the top represents the derived class, 'tops::ProbabilisticModelCreator'. A blue arrow points from the base class box to the derived class box, indicating that the derived class inherits from the base class.
